

OCEANVIEW IMPACT RESISTANT WINDOWS

PERDIDO KEY, FL

What is **VIWINCO?**

Founded in 1982, Viwinco is a family-owned and operated window and door manufacturer, based out of Morgantown, Pennsylvania. We specialize in custom-made vinyl windows, patio doors and associated products for new construction and replacement applications in both residential and commercial markets. Our president, engineers, customer service and sales staff have decades of experience, and are dedicated to meeting the needs of your next project no matter how big, or how small.

COMPANY GOALS

- Be a company that is easy to do business with
- Consistent quality
- 100% On-time deliveries
- Salesforce and customer service department that is an asset to Viwinco and our customers
- Comprehensive and intuitive quoting software
- Service policy that is logical for all parties
- Continued focus on tools and programs to assist customers in selling and servicing our products

IN-HOUSE WINDOW AND DOOR MANUFACTURING PROCESS

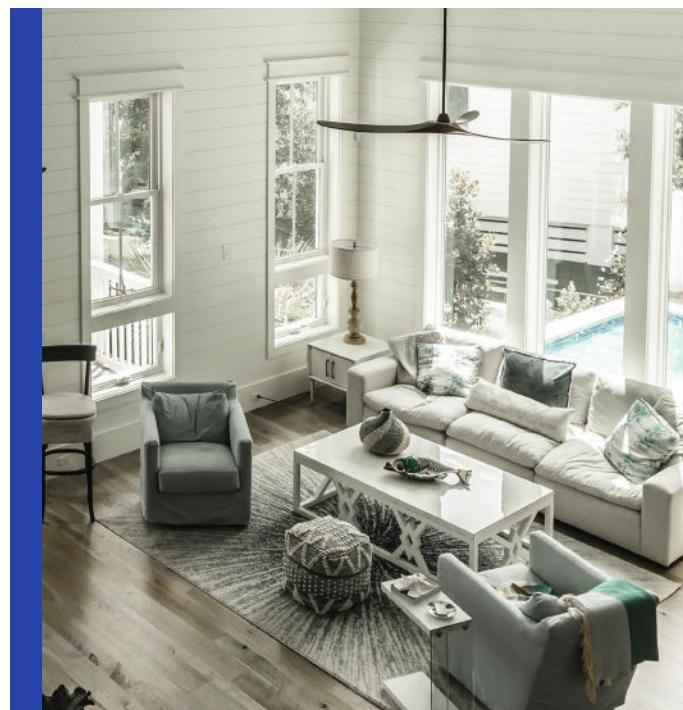

Almost all Viwinco products are produced entirely at our manufacturing facility in Morgantown, Pennsylvania. Over the years, we've brought a number of processes — such as tempering, laminating, and product development — in-house, allowing us to control the source. Controlling the source has enhanced our ability to oversee the quality of every product we produce, to ensure the products you receive exceed Viwinco standards.

CONTROLLING THE SOURCE

Since we control the source, we control the quality of every window and door that leaves our facility. Viwinco operates dedicated tempering and laminating departments in-house, using some of the industry's most technologically advanced equipment. The fact that almost all Viwinco products are produced entirely in-house has enabled us to maintain lead times that are unparalleled in this industry. Your project is important to us, and we don't feel you should wait extended periods of time to receive your windows and doors. That is why we ensure that the lead time on standard orders is 7-days or less.

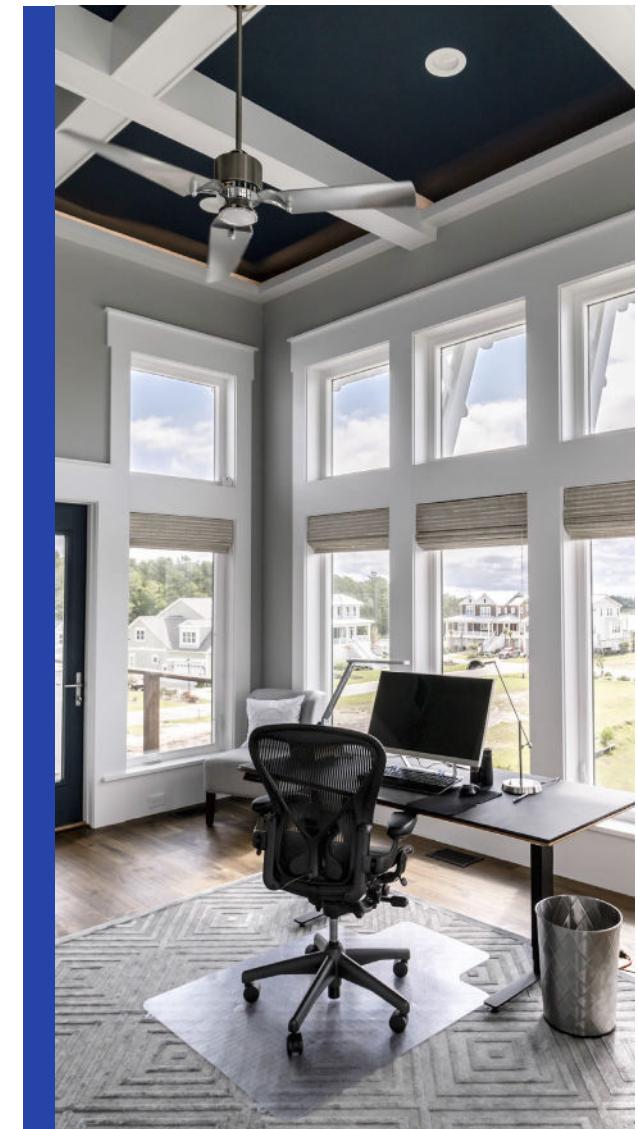

SUSTAINABILITY IN VIWINCO PRODUCTION

Viwinco manufacturing serves as an example of our commitment to energy-efficient production and sustainability. While harnessing energy from the sun, our solar farm — of over 7,800 solar panels — supplies us with 40% of the annual energy we spend to fuel our manufacturing facility. Utilizing an infinitely renewable energy source, such as the sun, provides an ecologically-responsible approach for us to create our quality products, while limiting our carbon footprint.

5 Reasons To Choose **VIWINCO**

1 | **A HIGHER STANDARD**

The glass package that comes standard in every window we manufacture provides top thermal performance, with one pane of low-e argon fill, and the Duralite® high performance spacer by Quanex. Our frames contain more PVC than those of our competitors. The result? Superior energy efficiency, more structural integrity and a lifetime of durability.

2 | **IN-HOUSE PRODUCTION = UNPARALLELED QUALITY**

Manufacturing occurs almost entirely within Viwinco's 140,000-square-foot manufacturing facility. We control the source to ensure the highest quality. We oversee every step of the process – from laminating and tempering our own glass to hand-washing each window and door before they ship.

3 | **ON-TIME, FAST DELIVERY**

Our in-house production system enables us to custom-make every order to your exact specifications while maintaining one of the fastest turnaround times in the industry.

4 | **INNOVATION - EVERY DAY**

Viwinco's state-of-the-art Research and Development Center features a dedicated engineering and technical staff, and is also home to our own certified test wall and on-site lab. The facility has allowed us to create the next generation of windows – including our OceanView® impact-resistant line. It also provides us the flexibility to monitor and test our products continually.

5 | **PERSONALIZED CUSTOMER SERVICE**

Our family-owned and operated business has been providing the immediate, individualized attention and service that has made our name one of the most trusted in the industry for over thirty-five years.
