

# NEW PICTURE WINDOW MODEL

REPLACEMENT  
NEW CONSTRUCTION

Viwinco is pleased to announce the introduction of our new picture window model that's designed to enhance performance, simplify installation, and create a consistent look across our product lines.

- Exclusive to Cambridge, S-Series, and OceanView
- Replacement and Florida Flange models now include pre-cut trim strips to cover installation holes.
- Glass package orientation matches other OceanView products.
- The OceanView product line has been updated, with DP ranges now increased to 50–70. For the latest performance data, please visit the Viwinco website: [viwinco.com/performance-data](http://viwinco.com/performance-data).

### When Does the Change Happen?

Effective September 20th all new picture window orders will use the updated picture window model. On Replacement and Florida Flange applications, pre-punched installation holes will be included **starting mid-October**.
